

# TEAM DRIFTMASTER COVERED BOOM

*'DESIGNED FOR THE ENVIRONMENT'*

## Features

- Concentrated 1Mtr spray application
- Compatible with all Team pedestrian sprayers
- Detachable material skirt
- Easily removable, lightweight fibreglass design
- Can be retro-fitted to existing machines

## **Standard Fittings**

- 1.2Mtr wide 2-nozzle GRP shroud
- Colour coded quick fit nozzles with anti-drip valves
- Detachable material skirt
- Height adjustable fixing bracket
- Pipe work with quick-coupled feed connection

The Team Driftmaster shrouded boom is fitted with 2 nozzles giving a 1Mtr concentrated spray coverage. Available as a standard fitting or as an optional extra for the Team Groundcare pedestrian sprayer range. By eliminating spray drift and concentrating the applied liquid to a given area, makes the Driftmaster shroud the ideal option for spraying near sensitive boundaries or in abnormal weather conditions.

# TEAM DUAL BOOM

## Designed For The Environment!

**DUAL BOOM WITH DRIFT COVERS FITTED**

Retro-fitted to JD H200

**DUAL BOOM WITH DRIFT COVERS REMOVED**

Team Demount Pro - Cushman version

This New smooth-riding Dual Boom covered boom system helps you to evenly treat your turf, no matter what the weather condition. It's innovative design and quality construction means that the system is easy to use and performs more efficiently than traditional spray equipment.

Supplied as a retrofit kit that can be fitted to your current spray system, this new 5.5 or 6Mtr spray delivery system ensures even coverage and less wear and tear on equipment.

### Features:

- Removable drift control covers are supplied that easily attach to the spray boom system covering the spray nozzles if windy conditions are present,
  - Outer boom nozzles are visible from operator's seat to verify nozzle flow
  - Boom folding 12V linear actuators are mounted on top of the boom centre frame of the spray area, ensuring a smooth maintenance and oil free boom folding system.
  - A double shock absorbing rubber isolation system keeps the extension structures operating smoothly in rough terrain. The system reduces shock levels by 50% allowing for a smoother ride for the extension arms and increased nozzles accuracy.
  - Shock absorber and spring boom breakaway system ensures a smooth boom protection system reducing wear and damage.
  - Spray nozzles are enclosed for protection, yet easily accessible.
  - Optional outer boom wheel kit to ensure boom section follow course contours
- Boom folded width with covers on: 2.3M (5.5M wide), 2.8M (6M wide)**
